

# Shopping with Dignity

Restoring Hope and Stability Through Dignity of Choice

Shopping with Dignity supports families transitioning to stable, independent housing by addressing a critical gap: lack of essential household items. While the families may secure rent, financial constraints often leave them without basics needed for a functional and stable home. We address this need by providing personalized shopping trips for families to purchase household items aiming to restore dignity, functionality, and stability in their home life.

Examples of items purchased include:

- Pots
- Bedding
- Pans
- Towels
- Dishes
- Vacuum
- Glasses
- Cleaning Supplies

These necessities, seemingly small, hold immense significance in restoring dignity, comfort and stability.

Referrals from organizations like yours have allowed us to walk alongside and assist families in this transition, including:

- Family of four stepping into their first apartment after experiencing homelessness
- Mother and her three children starting anew after living in a domestic violence shelter
- Grandmother creating a safe haven for two grandchildren after shelter life

*Kindness and compassion in every interaction*
